

**“ Nuflor is our first choice of drugs. We get a good response to it. The quicker you knock something out, the better off you are.”**

Paul Grimaldi, Manager  
Murray Edwards Livestock Company  
Lakeland, Florida

Paul Grimaldi manages his own cows and stocker calves, but his work doesn't end with his own operation. As manager of Murray Edwards Livestock Company, he is responsible for shipping thousands of head every year. Because the calves he buys for Murray Edwards are sourced from different sale barns, they're challenged from the time Grimaldi takes possession. He knows that keeping animals disease-free is tough when so many calves are comingled. When Grimaldi comes up against respiratory disease, his first choice of antibiotics is Nuflor®. See your veterinarian for more information.

**People who know cattle choose Nuflor.**
