

**"We use a lot of Nuflor. I like the spectrum of activity. The ability to do the job is better with Nuflor than other antibiotics."**

Dr. John Killian  
Bar-K Veterinary Clinic  
Marlin, Texas

Dr. John Killian wants his clients to stay in business so he can stay in business. That's why he recommends Nuflor<sup>®</sup> more than any other antibiotic. In his part of Texas, producers are split between cow/calf and heifer development operations, and stockers that are grazed on winter pasture or permanent summer pasture. For calves that are diagnosed with pneumonia, Dr. Killian likes the long-acting, single-dose therapy of Nuflor. See your veterinarian for more information.

**People who know cattle choose Nuflor.**
